

Feb 17, 2025 As a key focus of China's green energy transition during the 14th Five-Year Plan (2021-25) period, the construction of new-energy bases, particularly in sandy areas, rocky ?

Mar 22, 2025 Meanwhile, wind power capacity reached about 520 million kilowatts during the same period, marking an 18-percent increase. Due to the demand for new energy installations, ?

Jun 1, 2023 China's new power system with renewable energy as the main part is accelerating construction. Renewable energy with photovoltaic and wind power as the main body has ?

May 1, 2017 The pumped storage power station (PSPS) is a special power source that has flexible operation modes and multiple functions. With the rapid economic development in ?

Nov 15, 2025 Foreword Stepping up efforts to develop new energy storage technologies is critical in driving renewable energy adoption, achieving China's 30/60 carbon goals, and ?

Apr 9, 2024 On March 31, the second phase of the 100 MW/200 MWh energy storage station, a supporting project of the Ningxia Power's East Ningxia Composite Photovoltaic Base Project ?

Jun 27, 2025 In the context of the global response to climate change and the pursuit of sustainable development, the new energy industry is booming at an unprecedented speed and ?

Sep 4, 2023 On August 24, the construction of the 4x660 MW unit expansion project at CHN Energy's Tenggeli Zhongwei Power Plant began, marking the commencement of China's first ?

TURFAN, China, June 11, 2025 /PRNewswire/ ? On June 11th, Turfan 's installed capacity of new energy sources reached 9.035 million kilowatts (kW), accounting for 74.2% of its total ?

Aug 2, 2023 Multi-energy complementary development requires overall planning, design, construction and operation of various power sources, giving priority to the development of new ?

Jul 30, 2023 Based on the problems of isolated data resources, incomplete equipment monitoring and insufficient digital support means in the substation service of current power ?

Construction of new energy power generation base stations

Oct 26, 2023 Construction of the second phase of China's largest renewable energy power base in the country's Gobi Desert and other arid regions will further facilitate the country's shift from ?

Oct 1, 2024 As the proportion of renewable energy infiltrating the power grid increases, suppressing its randomness and volatility, reducing its impact on the safe operation of the ?

Mar 25, 2025 1.2 Contents and scale of project construction The project covers an area of 40000 square meters, mainly constructing a 100MW/200MWh lead-carbon energy storage power ?

Oct 25, 2023 The second phase of China's largest renewable energy power base in the country's Gobi Desert and other arid regions kicked off construction on Tuesday in Northwest ?

TURFAN, China, June 11, 2025 /PRNewswire/ -- On June 11th, Turfan 's installed capacity of new energy sources reached 9.035 million kilowatts (kW), accounting for 74.2% of its total power ?
