

Nov 11, 2025 The European Bank for Reconstruction and Development (EBRD) has announced a direct equity investment of up to €16.8 million in IE-Energy Projekt, a newly established joint venture.

Oct 22, 2025 EBRD invests €16.8m in Croatia's first large-scale battery storage and virtual power plant – its first equity stake in standalone merchant Battery Energy Storage System (BESS).

Apr 24, 2024 In a significant stride towards energy modernisation, Croatia is setting aside EUR 500 million for the development of large-scale energy storage systems. The announcement marks a major commitment to enhancing the country's energy infrastructure.

May 20, 2025 Why Croatia Is Becoming a Hub for Energy Storage Innovation When you think of renewable energy hotspots, Croatia might not be the first country that comes to mind. But as the nation invests heavily in energy storage, it is positioning itself as a key player in the global transition to clean energy.

Dec 20, 2022 IE Energy, a Croatia-based energy storage operator, is set to build a 50 MW storage project, after securing €19.8 million from the Croatian government via state aid from the Ministry of Energy.

The Ulsan Substation Energy Storage System is a 32,000kW lithium-ion battery energy storage project located in Namgu, Ulsan, South Korea. The rated storage capacity of the project is 100 MWh.

Oct 23, 2025 Croatia is moving forward with its largest grid-scale battery energy storage project thanks to a new investment from the European Bank for Reconstruction and Development (EBRD).

Feb 25, 2025 However, the storage of electrical energy remains a challenge. Rechargeable lithium-ion battery technologies remain limited due to their planar two-dimensional design, which restricts energy density.

Oct 10, 2025 The EUR 60 million project is a step toward creating a virtual network of battery storage systems connecting renewable energy producers and consumers.

Oct 1, 2020 Introduction The dramatic growing commercial electrical device market evokes a high demand for novel electrochemical energy systems that can provide higher energy density and longer lifetimes.

Oct 13, 2025 The Croatian government has allocated almost €20 million (\$23.2 million) of European Union Modernization Fund grants to help complete a 60 MW/120 MWh battery storage project.

Will Croatia build Europe's largest energy storage project? Croatia is preparing to build Eastern Europe's largest energy storage project, a 60 MW/120 MWh lithium-ion battery storage system.

Europe's largest energy storage project. IE Energy has secured ?19.8 million (\$20.9 million) to ?

Nov 14, 2024 The high energy density Lithium-ion batteries (LIBs) are one of the major storage solutions for large-scale applications 22, 23, providing consistent renewable energy supply to ?

Oct 22, 2025 Search all the latest and upcoming battery energy storage system (BESS) projects, bids, RFPs, ICBs, tenders, government contracts, and awards in Croatia with our ?

Oct 22, 2025 The European Bank for Reconstruction and Development (EBRD) said it will make a direct equity investment of up to EUR 16.8 million (USD 19.5m) in IE-Energy Projekt d.d., a ?

Jan 1, 2021 Enormous efforts for the development of future electrochemical energy storage (EES) systems are devoted to research activities focusing on low-cost materials as well as ?
