How will a 20 MW solar plant benefit Juba?

---

The 20 MW solar plant will supply electricity to approximately 16,000 households in Juba, integrating clean energy into the national grid. The project is expected to reduce carbon emissions, lower electricity costs, and enhance grid stability. The BESS system ensures a reliable power supply, allowing stored solar energy to be used when needed.

What is a solar power plant in South Sudan?

Image: The recently launched 20MW solar energy plant in South Sudan. Credit: Ezra Group A public-private partnership in South Sudan has launched the country's first major solar power plant and Battery Energy Storage System(BESS) in the capital Juba, where it is expected to provide electricity to thousands of homes.

Who distributes electricity in Juba?

The Juba Electricity Distribution Company(JEDCO), a public-private partnership between Ezra Group and SSEC, is responsible for distributing the generated electricity to consumers in Juba. JEDCO receives bulk energy from Ezra Construction & Development Group and distributes it across the region.
