

What is Romania's largest battery project?

---

Leading the development is Nova Power & Gas, part of the Romanian E-Infra Group, which has unveiled plans for the nation's largest battery project to date. The company will build a 400 MWh facility in Florești, Cluj county, which is expected to be operational by the end of 2025.

Will Romania's natural gas storage facilities reach 80% capacity?

BUCHAREST, Oct 3 (Reuters) - Romanian natural gas storage facilities have been filled above a targeted 80% capacity and could reach 90% by Nov. 1, deputy Energy Minister Dan Dragan said on Monday. Unlike other countries in the region, Romania relies less on Russian gas.

How much storage capacity will Romania have in 2025?

This single project will double Romania's current installed storage capacity of 398.8 MWh, a figure that comes from transmission system operator Transelectrica, and mentioned by Romania's energy minister Sebastian Burduja in April, 2025.

What is the energy sector like in Romania?

Romania's energy sector is key to its evolving economy and security policy. It has a diverse energy mix, including coal, natural gas, nuclear, hydroelectric, and renewable sources. The largest share of electricity production historically came from coal and natural gas, followed by hydroelectric and nuclear power.

How is Romania transforming the European energy landscape?

The investment wave, supported by key regulatory changes, is elevating Romania in the European energy landscape. Leading the development is Nova Power & Gas, part of the Romanian E-Infra Group, which has unveiled plans for the nation's largest battery project to date.

Does Romania have a double taxation of stored electricity?

Romania's National Energy Regulatory Authority (ANRE) recently eliminated the double taxation of stored electricity. The new rules exempt electricity stored and then reinjected into the grid from several tariffs, removing a significant financial barrier for investors.

Nov 18, 2025 Energy Minister Bogdan Ivan has unveiled a new \$150 million energy storage program,

expected to deliver 385 MW of battery storage projects across Romanian ?

---

Jul 10, 2025 Once completed, the station will become the largest independent shared energy storage facility in North China, providing the power grid with over 500 million kilowatt-hours of ?

A battery energy storage system (BESS) or battery storage power station is a type of energy storage technology that uses a group of batteries to store electrical energy. Battery storage is ?

Oct 15, 2025 Transelectrica, the national transport and energy system operator, has launched tenders for the installation of photovoltaic systems and storage facilities in stations, a project ?

6 days ago Romania's new ?150 million (\$173.8 million) municipal storage program could add 385 MW of capacity and coincides with financing for one of the country's largest standalone ?

Jul 31, 2025 Enterprising companies in Romania's energy storage market have expansion, with recent announcements from two major players, Nova Power & Gas and Visual Fan, set to add ?

Mar 12, 2024 Investing in the expansion and upgrade of network infrastructure, including cross-border, support the transportation of electricity and energy vectors and regional energy ?

1 day ago VERBUND Wind Power Romania, the Romanian subsidiary of the Austrian energy company VERBUND, has selected a consortium consisting of Prime Batteries Technology and ?

Oct 7, 2025 Hidroelectrica, the largest electricity producer in Romania, will invest rapidly in energy storage systems, said Bogdan Badea, the company's general manager, at an event ?

Jul 23, 2025 Nova Power & Gas, a Romanian energy company and part of the E-INFRA group, announces the start of the largest battery storage project in Romania. The facility, to be built in ?

May 15, 2024 Two-stage robust transaction optimization model and benefit allocation strategy for new energy power stations with shared energy storage considering green certificate and ?

Apr 24, 2018 In terms of energy storage capacity in Romania, there are a number of pumped storage hydro power plants with a total capacity of over 200 MW. However, due to technical ?

Jul 24, 2025 Part of the Romanian E-Infra Group, Nova Power & Gas announced the launched of the

largest battery energy storage project in Romania. The installation in Florești, Cluj ?

---

Jun 19, 2025 Romanian transmission system operator Transelectrica has announced a tender for a battery energy storage project with a 35MW power output and 70 MWh storage capacity. ?

6 days ago Aukera Energy has secured a ?60m (\$69.58m) debt facility from Kommunalkredit Austria to finance its first standalone battery energy storage system (BESS) in Romania.

Jan 7, 2025 The data of the transmission and system operator show that, on January 1, 2025, 13 battery storage groups are operational in Romania, which have a total installed power of 137.2 ?
