

2 days ago China's offshore wind future ? Strategic anchors & policy blueprint China's offshore wind sector is entering a critical phase of development, requiring a coordinated policy ?

Mar 11, 2025 The world is witnessing an energy revolution. As traditional coal plants grow older, we're seeing a rapid increase in the use of renewable energy sources such as wind and solar ?

Jun 28, 2025 Senate Republicans make steep cuts to wind and solar in updated megabill text The changes came after President Donald Trump urged Senate Majority Leader John Thune ?

Oct 13, 2025 The substation deeply integrates wind energy, solar power, and energy storage technologies with its exhibition hall's power supply system, forming a localized intelligent ?

Jul 24, 2025 Solar photovoltaic (PV) and wind have constituted the majority of new global power capacity for several years according to the United Nations 2025 Energy Transition Report.

Jan 1, 2024 We show that adding battery storage capacity without concomitant expansion of renewable generation capacity is inefficient. Keeping the wind-solar installations within the ?

2 days ago China's new hybrid heat pump slashes energy costs by 55% and grid reliance by 75% The hybrid system uses AI-based optimization to balance renewable energy, heating and ?

Oct 4, 2025 However, solar and wind power generation still face the challenge of unstable power supply due to weather conditions. China is rapidly promoting progress in energy storage ?

Apr 18, 2018 Colocating wind and solar generation with battery energy storage is a concept garnering much attention lately. An integrated wind, solar, and energy storage (IWSES) plant ?

3 days ago New solar panel tech and better wind farms are making clean energy more efficient. Battery storage is improving, and smart grids are helping manage all this new power. AI is ?

Jul 22, 2025 The global energy landscape is undergoing a dramatic shift marked by the accelerating deployment of wind and solar technologies. Driven by compelling economics and ?

---

Jan 22, 2025 Some predictions imply that weaning the grid off fossil fuels will invariably save money, thanks to declining costs of solar panels and wind turbines, but those projections don't ?

3 days ago Latest news on energy storage projects, BESS, capacity expansion, and regulatory updates across Europe, US & Canada, Latin America, and Asia Pacific. Discover how energy ?

2 days ago Storage, hybrid projects emerging as renewable energy post-OBBA winners: LevelTen Energy Hybrid development could exceed standalone wind and solar by 2030, a ?

Eight more integrated solar and energy storage initiatives, along with two onshore wind projects, made the cut since the department of energy released a preliminary tally after the auction in ?
