What is the best portable battery charger?

Anker 87W 20,000 mAh Power Bank This Anker power bank is our top pick for a compact all-in-one charger because it's one of the rare models that truly balances portability with serious power. While many 20,000mAh chargers are only suitable for phones, our testing confirmed this Anker portable battery has power output that is the real deal.

What can a portable power station charge?

All portable power stations can charge up small gadgets like phones and laptops or be used to power lighting. Most can handle small appliances like mini-fridges or TVs. If you want to use power tools, an AC unit, or in the UK, a kettle, you need to be able to draw thousands of watts.

Do portable chargers & power banks work if you're out of juice?

These portable chargers and power banks give you the most boost when you're out of juice. Sarah has been writing about consumer tech since 2019 with a focus on e-readers, phones, and tablets. Watching your phone or tablet steadily run out of power when you're nowhere near an outlet is stressful.

Why should you buy a portable power station?

Bring big backup power with you with these expert-recommended portable power stations, which can store enough power to charge electronics, appliances, and more.

Does a power station have a smart charging output?

Almost every power station today will incorporate some type of smart charging output, which will modulate the power based on the needs of the device being charged. Some power stations, like the BioLite BaseCharge 1500 and Yoshino Power B4000 SST, incorporate Qi wireless charging surfaces on their exteriors.

What is a good portable battery?

1. Anker MagGo Power Bank (10K, Slim) The Anker MagGo Power Bank (10,000 mAh, Slim) checks all of our boxes for a great portable battery. It's magnetic; it charges fast; and it isn't a burden to carry. If you have an iPhone or a newer Pixel, or a phone case with magnets, this is the first power bank to consider.
